

Internship Admissions, Support, and Initial Placement Data

Date Program Tables are updated: 9/13/2021

Program Disclosures

Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution’s affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values?	Yes <input checked="" type="checkbox"/> No
If yes, provide website link (or content from brochure) where this specific information is presented:	

Internship Program Admissions

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Friends Hospital's Internship in Clinical Psychology provides an opportunity for doctoral candidates in clinical, counseling, and school psychology to work under close supervision in a professional setting that is committed to the principles of recovery-oriented, trauma-informed care and empirically-supported treatments. The internship program employs a Practitioner-Scholar model of training and is grounded in cognitive and behavioral approaches to therapy, including integrated care interventions. The program provides exposure to a broad range of clinical experiences, roles, and responsibilities, and encourages professional development through clinical experience, supervision, and didactic training. Cultural competence and ethical decision-making is emphasized. The internship has 3 sites: Friends Hospital, Fairmount Behaviorla Health, and Foundations Behavioral Health (further information and descriptions of all of the clinical settings and the experiences offered for this internship is provided in Appendices III-VI). The number of internship rotations at each site are as follows:

Adult (APPIC Match #153511)

Child/ Adolescent (APPIC Match # 153512)

Friends Hospital	3 adult	1 adolescent
Foundations	0 adult	1 child/ adolescent
Fairmount	1 adult	1 child/ adolescent

Interns will be stationed at one site during the training year. Upon applying to this internship, applicants must indicate if they are applying to the child/adolescent or adult track. Interns work 37.5 hours per week in order to achieve 1800 training hours at the completion of the internship year. This requirement allows interns to meet the standards for licensure in most states. Due to the nature of being in hospital settings, holiday and weekend rotations are an expectation of the internship. Interns conduct individual and group therapy at their assigned rotations, as well as behavior plans and assessments if applicable, under the supervision of a licensed clinical psychologist. Additionally, interns take on a clinical leadership role by advising their respective treatment teams on the progress of individuals in their treatment and discharge planning, behavior modification, and program development. The psychology intern serves as a key member of the treatment team.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	yes	Amount: 450
Total Direct Contact Assessment Hours	yes	Amount: Adult track:25 child/adolescent track: 250

Describe any other required minimum criteria used to screen applicants:

The internship is open to qualified students with a Master's Degree who are enrolled in an APA-Accredited Clinical Psychology (preferred), Counseling Psychology, or School Psychology doctoral program, have completed their formal course work, have passed all comprehensive exams, and have successfully proposed their dissertation at the time of internship application. Evidence of supervised training and course work in empirically-supported principles of treatment, group and individual interventions, psychopathology and differential diagnosis, cultural diversity and individual differences, professional ethics, research and statistical methods, and psychological assessment techniques is required. A total of 1400 hours of experience is required, which includes a minimum of 450 intervention hours and 25 assessment hours in a supervised practicum. For those applying to the child/ adolescent track, there is an additional requirement that of the 1400 total hours, 250 of the intervention hours be conducted with the child or adolescent population. Highly qualified candidates generally have prior inpatient/partial/ or school experience, group therapy experience, a focus on empirically-supported interventions, a desire for continued assessment experience, and exposure to recovery-oriented treatment environments.

Financial and Other Benefit Support for Upcoming Training Year*

Annual Stipend/Salary for Full-time Interns	28,568.00	
Annual Stipend/Salary for Half-time Interns	N/A	
Program provides access to medical insurance for intern?	<input checked="" type="checkbox"/> Yes	No
If access to medical insurance is provided:		
Trainee contribution to cost required?	<input checked="" type="checkbox"/> Yes	No
